

It's About Dignity, Respect, and Independent Living

Home care improves the quality of life for thousands of Missourians.

With the legislative session coming up it's more important than ever that we move forward.

Kansas City*

After our election victory, opponents of better home care tried to block our union in court. The judge ruled we have a right to unite and have a voice, and now we're going to rerun our election to overcome any further litigation.

We spoke loudly when over 85% said YES to the Missouri Home Care Union. We want a union and we'll say YES again!
