We arrived to the evening "hang out" with the engaging and very accomplished bartender for a bar of Lebua State Tower Hotel. Lebua made appearances in the movies: Bangkok Dangerous starring Nicolas Cage and his character was the lead in a bank heist. The bar features a circular bar with a rotating stage. There are three levels of seating and a great view of the city. The drink was amazing and quite a treat. We ordered the signature "in the clouds" drink which is a mix of asian and french flavors. The drink was smooth and delicious.

The next stop was the opening of the new restaurant at the hotel's new restaurant. The opening was quite a success and the menu was a hit. The menu included a variety of dishes, including seafood, Japanese, and Thai. The majority of the dishes were quite good, especially the seafood. The service was also quite good, with the staff being very friendly and helpful.

We ended the night with a bonfire on the rooftop of the hotel, overlooking the city. The view was stunning and the fire added a warm and cozy atmosphere. Overall, it was a wonderful night filled with great food, drinks, and company.
