More choice, less calories.

Did you know more than 40% of the Coca-Cola we sell in Great Britain is without sugar or calories?
Coca-Cola Life is the latest addition to our range, sweetened from natural sources and containing a third less sugar and a third fewer calories than regular cola.

We have also reformulated some of our best loved brands, such as Fanta, Sprite and Oasis, reducing their sugar and calorie content to help people choose the drink that suits them and their family.

For more information on our drinks, visit coca-cola.co.uk

Welcome to this special conference which takes place at a critical moment in the history of our party and our country.

At this conference we will reaffirm our values and refound our party. We will leave people in no doubt that it is the Scottish Labour Party that stands up for Scotland and for Labour values.

As we renew our party, we are focused on rescuing our country from the Tories. In a few weeks we can kick out Cameron and Osborne, and replace them with a Labour Government. A Labour Government which will tackle the inequality and injustice faced by working class Scots and give hope to middle class Scots who have seen their standard of living go backwards over the last few wasted years.

If they are returned as the biggest party, the Tories are committed to taking public spending back to the 1930s, before there was an NHS. That would be a disaster for working people in Scotland. We know that only Labour can stop the Tories being the biggest party and that every vote for the SNP makes it more likely David Cameron will be returned to Downing Street for another five years.

But we also know that it is only a vote for Scottish Labour that will change Scotland for the better. We know that when Scottish workers prosper, Scotland prospers, so at this conference we will set out our policies for a tax on bankers’ bonuses to guarantee jobs, training or an apprenticeship for young people; a mansion tax to invest in the NHS and recruit 1000 nurses; a ban on zero hours contracts that exploit workers; a minimum wage rising to £8 an hour. These are all things that only Scottish Labour can deliver because we are the only party who support redistribution from rich to poor, from South to North.

We go into this conference and the General Election that follows confident that Scottish Labour offers the change that Scotland needs and so desperately wants.

In this election, it is Scottish Labour that stands for Scotland.

Jim Murphy MP
Scottish Labour Leader
I’m delighted to welcome our conference to Edinburgh this weekend.

I was brought up in the North East, but I’ve lived in Edinburgh for over a decade now. It’s my home and I’m incredibly honoured to represent the city in the Scottish Parliament.

Since becoming Deputy Leader, I’ve seen first hand that our party has the passion, intelligence and drive to win for our communities. Our MPs represent their constituencies first and foremost with great pride, so we must fight to return them in May and replace this Tory Government for everyone in Scotland.

Our conference takes place in the seat of Edinburgh South West and after representing Edinburgh and our party at local and national level for over 30 years, its current MP - Alistair Darling - is to stand down.

Alistair fought the policies of Thatcher in the 80s, served in Labour Governments for 13 years, led our country as Chancellor during our toughest years and headed the campaign against separation. He is doing what so many political figures often fail to do, he’s stepping back as a winner.

This conference allows us to take our party forward but I hope we all take a moment this weekend, whilst we’re in his constituency to thank Alistair as he steps back from frontline politics but safe in the knowledge that he still has much to offer our party and nation.

Kezia Dugdale MSP
Scottish Labour Deputy Leader
In just 61 days, we have the opportunity to get rid of this Tory Government. It’s been five years since the last UK election, and we’ve seen clearly the consequences of what having the Tories in power means for our communities. Foodbanks on the rise, too many of our young people out of work and people the length and breadth of our country struggling to make ends meet.

But it doesn’t need to be like this. Over the next eight weeks, we need to be out in every community across Scotland getting our message across about why people should vote for Scottish Labour. This is going to be a tough campaign, but the prize at the end of it is huge.

The hours on the doorstep will be worth it when we have a Labour Government across the UK that is going to take radical action to change our country for good. When we’re increasing the minimum wage to £8 an hour, freezing gas and electricity prices, using the bankers’ bonus tax to pay for jobs for our young people or passing Labour’s Home Rule Bill to get the powers we promised to the Scottish Parliament.

Scotland will be better off with the next Labour Government. But we’re not going to be able to do it without your help. For too long, our country has worked for a few people at the top and not the vast majority. With your help, that’s what we’re going to change after this election.

Margaret Curran MP
Shadow Secretary of State for Scotland
BRIAN ROY

I would like to welcome all delegates and visitors to conference. Over the past few months, during difficult yet exciting times, thousands of new members have joined the Scottish Labour Party. I would like to extend a warm welcome in particular to those new members.

I joined the Labour Party almost 19 years ago in the final year of the last Tory Government. I campaigned to get rid of the Tories then and as Scottish General Secretary, I am determined to fight to rid us of them now.

Under the new leadership of Jim and Kezia, I have witnessed a renewed energy, strength and confidence in our organisation and members. We have hundreds of activists campaigning every day to deliver a Labour victory in May. The recent launch of Skills Match, a tool to match member’s skills and experiences with a key campaigning role, is transforming the way we engage with and make the most of our membership.

The Scottish Party staff, including our 20 new General Election Campaign Assistants in key battleground seats across Scotland, along with our policy and communications team in Edinburgh are the hardest working and most dedicated I have worked with. I want to thank them for the work they are doing and the work they will do over the coming months.

This conference is a key moment in defining our Scottish Labour Party, both constitutionally and in our policies and values. Take part in the debate and shape our future.

Brian Roy
Scottish General Secretary
Estimated bills, kilowatt hours, clunky and expensive pre-payment keys: we’re still using yesterday’s technology to buy and use gas and electricity. It’s time for a change. Between now and 2020, every home in Scotland will be offered the chance to upgrade to a smart meter – at no additional cost.

The national roll-out of 50 million smart meters across Great Britain between now and 2020 is an essential transformation of the nation’s energy infrastructure.

Smart meters give consumers more control over the gas and electricity we buy to power our homes and small businesses. They will bring an end to estimated bills, show us what we’re using in pounds and pence, and in the future they’ll make it easier to shop around for the best deal.

Smart Energy GB is the not-for-profit consumer campaign for the national smart meter roll-out.

We’re here at Scottish Labour Conference, Stand 5 in the Exhibition Hall and we’d love to answer your questions and hear what you think.

To find out more about smart meters and the national roll-out, visit our website or contact our Head of Communications Scotland, John MacNeil on john.macneil@smartenergygb.org or on 0131 247 7513

NUMERICAL LISTINGS

Stand 1
Co-op Party
A fairer society means sharing power and working together. We believe that things work best when ordinary people have a voice, and when services are accountable to the people who use them. As the political party of the co-operative movement, we work in partnership with the Scottish Labour Party to achieve these aims. There are 31 joint Labour & Co-operative MPs in Parliament including 5 in Scotland and new candidates, as well as 4 MSPs and many councilors across Scotland. Together, we're ensuring the co-operative and mutual values are at the heart of politics.

With all eyes now on the future, we need to focus on how we can come together to make Scotland the best place to live, work and do business. Business and entrepreneurship has a crucial role to play in delivering the fairer and more prosperous Scotland for which so many express a keen desire. Not only do we create jobs, opportunities and revenues, a life in business can open up a whole world of possibilities for those with the drive and potential.

The FSB is proud to stand up for Scotland’s 340,000 small businesses who have done so much to build the recovery, including employing more than half of the country’s private sector workforce.

But we’re by no means out of the woods. We need government to make sure small businesses have the tools – from proportionate regulations, to fair taxes, to realistic finance options – to drive their plans forward.

Universities Scotland is delighted to host an early evening fringe event on the topic of widening access to university with guest speakers:

Speakers: Iain Gray MSP, Shadow Cabinet Secretary for Education and Lifelong Learning

Organisation: My Life, My Death, My Choice
Subject: Supporting Assisted Suicide
Room/Time: Kilsyth Room, Lunchtime
Description: With just 61 days until the polls open, the end of the first fixed-term parliament approaches and the contest looks too close to call. After five years in opposition to a Coalition Government in Westminster, does this year’s General Election represent an opportunity or a threat for the party, both in Scotland and across the UK? What impact will the new leadership team in place in Scotland have and how can the party build momentum between now and election day? How much of an impact will the referendum campaign have on the outcome and what would count as a success, both north and south of the border? In an era of coalition governments, what ‘red lines’ would the party set in any negotiations? Former Law Society President, Austin Lafferty, will be joined by an expert panel of party members and external commentators to consider these questions and look at lessons learned from a remarkable five years both at Westminster and in Scottish politics.

Expanding Heathrow could create over 16,000 new jobs and deliver up to £14 billion of economic benefits in Scotland alone.

Which explains why we’re getting support from all corners of the country. From residents in our local boroughs, to other UK airports including Aberdeen and Glasgow.

From the British International Freight Association to more than 30 Chambers of Commerce, as far apart as Kent and Inverness. They’re joining the growing support behind building on the success of Britain’s world-class hub airport.

Because they know the best place to connect Britain to future growth – is the place that already does.
